

# RISE FOR CLIMATE

Welcome to the Rise for Climate webinar.  
We are just getting set up and will start in a few minutes.

In the meantime introduce yourself in the chat - type your name and where you are zooming in from.

# RISE FOR CLIMATE

On September 8th, people around the world will come together to raise the bar on climate leadership.

We will organise actions everywhere to demand that local leaders commit to building a fossil free world that works for all of us.

**PEOPLE'S CLIMATE MARCH**

**THE SYSTEM is sacred Earth**

**FOR CULTURE FOR COUNTRY SEED**

**CLIMATE JUSTICE**

**THE BIGGEST THREAT TO OUR PLANET**

**CLIMATE EMERGENCY SOS**

**STOP MESSING WITH MY FUTURE**

**HOME LANDS ARE OUR RIGHT**

**GREEN**

**DON'T FORK WITH THE PLANET...**

**DON'T FORK WITH THE PLANET...**

**GO VEGAN**

**SAM**

**30**

**BURN THESE FOR CLIMATE TO CHANGE EVERYTHING**

# RISE FOR CLIMATE

We are inviting people across Australia to organise an action in their local area, targeting a local decision maker for September 8th.

By joining together we can show the power of our movement.

**GETTING STARTED:**

**How do we Rise together?**

# WHAT CAN YOU DO?

**#1 Organise a local action**

**Or**

**#2 Join the Sydney-based mobilising  
team**

**FOUR EASY STEPS:**

**Organising a local action for  
RISE FOR CLIMATE**

# 1

## Register your event

- Put your event on the map as soon as possible so that you can get RSVPs and get access to the resources that you need.
- It doesn't matter if you haven't got all the details yet, you can edit it later.

# 2

## Get your resources

- We have guides on how to organise an action for people that have never done this before.
- We will put you in contact with our mobilising team that are on-hand to help you.

# 3

## Gather your people

- Gather together with people in your community to plan your action and decide what will be strategic and look great for media.

# 4

## Plan your action

- Use the Sun and/or the Cross in a dynamic way
- Your action should be **public**, directed at a **clear target** or decision maker, and should have a **clear ask**.

# Some ideas to get you going:

- ▶ **Marching to or from a fossil fuel infrastructure site, or perhaps from a renewable energy site to a local government office or town hall.**  
*Example: Marching from a coal fired-power plant to the local state MP office to demand a transition to a 100% renewable energy and a just transition for workers in the region.*
- ▶ **Delivering a pledge or petition to a target - this could be to your mayor, councillor, faith or education leader.**  
*Example: 20-30 people coming together for a petition delivery to your local councillor calling on the council to divest from fossil fuels.*
- ▶ **Rallies, parades, parties, festivals, human signs, murals, massive sun or cross banners.**  
*Example: Bringing together 200 people to parade through the streets of your town calling for your city council to declare no new fossil fuel projects or infrastructure in your city.*

# Symbols - ☀️ Sun and the Cross ❌

# Resources and support

- We will send out these slides, a recording of this webinar, and a four page resource after this call.
- We will help support you will calls by trained action organisers
- Action organising guide
- Action concepts
- Action Network guide

# SIGN UP NOW

Organise a local action:
