

## Fossil Free Sponsorships - 350 Volunteer Team

### About 350.org Australia

We are building a grassroots movement to stand up to the fossil fuel industry, and support a just transition from coal, oil and gas to a renewable energy future for all. The movement is rising from the ground up all over the world and is uniting to create the solutions that will create a better future for all. 350.org Australia is a not-for-profit project helping build this movement from our corner of the globe.

We know that the climate crisis is about power – and not just the kind of power that runs our cars and keeps the lights on. We believe that the only way we'll see meaningful action on climate change is if we can counter the power of big fossil fuel companies with the power of people taking collective action. That's why we are building a grassroots movement that is big enough to shift power away from the big polluters who are driving the crisis, to the people on the frontlines building the solutions. We design a central strategy that anyone can be involved in and adapt to their communities.

Currently we have a network of 10 active groups across Australia who are leading and carrying out campaigns to cut the flow of money to the gas industry and undermine the social license of gas.

### The Movement Support Team (MST)

The MST exists to grow, support and build leadership within our network of volunteers and to create the scale of people power and skills that we need to stand up to the fossil fuel industry.

The Fossil Free Sponsorships team will provide vital backend support for the campaign to end fossil fuel sponsorships across a range of community institutions. You'll be part of the MST cohort and training program but play a distinct role in support 350's campaigners to roll out the Fossil Free Sponsorships campaign.

### Fossil Free Sponsorships

To undermine the social license of fossil fuel corporations who are wrecking our climate and pillaging our land, we are on a mission to sever as many partnerships between these companies and community, arts, sports and education institutions as possible.

A coalition of artists, athletes, activists, parents, researchers and more are part of a coalition working on this issue, and this volunteer role and team would support this work. Key projects include

recruiting organisations to take the pledge to not take fossil fuel money, reaching out to organisations that do take fossil fuel money and asking them to cut ties, creating content for the website and social media, and contributing to overall strategy and direction for the campaign.

## Training & Development

We have an equal focus on MST members doing the groundwork through volunteering and your training and development. This includes:

- **March bootcamp (compulsory) on 4 & 5 March online** - includes training on campaign strategy, community organising and effective communications
- Regular mentoring and team meetings (with clear direction, timelines and goal-setting)
- Regularly applying your skills in your role
- November 2-day bootcamp to further leadership, mentoring, campaigning skills

## How to apply

**Apply via the google form here.** Feel free to contact [kelly@350.org.au](mailto:kelly@350.org.au) if you have any questions or want to chat about the role before applying. We will be interviewing from January to mid-March on a rolling basis.
